

Xorel for Headboards: Q Center Conference Center

Case Study

Location

St. Charles, IL

Product & End-Use

Xorel Quarry on Headboards

Q Center is the largest conference center in the midwest with 1,042 guest rooms on 95 acres of land. The space was designed by Marcie Delarosa of Delarosa Studio out of Chicago, IL. Delarosa chose Xorel Quarry to create the tufted headboards featured in over 300 high end Executive and Suite Level rooms.

“We chose Xorel primarily because of the look of the material. It was one of the few textiles that met the criteria of durability and cleanability that was also nice looking.”

Marcie Delarosa, Designer

Delarosa also reports that the client is happy with the look, performance and ease of maintenance of the Xorel headboards. “More importantly,” said Delarosa, “they have had very good guest response to them.” Q Center earned a 2014 TripAdvisor Certificate of Excellence.
